

## DESCRIPTION

The brand-new E2- WPF-WP15 Series of LED Wall Pack, is available from 26W to 135W, and can replace up to 400W MH. It has uniform light distribution and excellent LED lumen maintenance rate, high energy efficiency, low cost, stylish design, and a long service life. It also has on-site dimmable output and CCT settings, allowing the contractor to set the lumen value and CCT of the fixture at the installation site to a level that is perfectly suitable for the project. Emergency back up battery and light control are optional, which is an ideal choice to meet any daily wall-mounted lighting applications.

## SPECIFICATION FEATURES

### Construction

- Two-piece die-cast aluminum housing secures the thermally conductive LED panel and electrical chamber.
- Casting thermally conducts LED heat to optimize performance and long life.
- Suitable for applications requiring 3G testing prescribed by ANSI C136.31.

### Optics

- The 135W is available in standard 3000K 4000K and 5000K configurations and the other powers are supports adjustable color temperature (3000/4000/5000K).
- Scalable Lumen Packages from 3,800 to 20,000 Lumens.
- Anti-UV prismatic translucent lens is designed to shape the light distribution and uniformity.

### Electrical

- Universal 120-277 or 347-380 VAC input voltage.
- 1-10V Dimming.
- Both drivers have a power factor >90%, THD <20%.
- Operating Temperature Range: -40°C to 40°C (-40°F - +104°F).

**Note:** Operating with emergency battery temperature range: 10°C to 40°C (+50°F - +104°F).

### Controls

- Optional Photocell
- Optional Emergency Battery

### Lifespan

- Estimated 50,000-hour LED lifespan based on IES LM-80 results and TM-21 calculations.

### Warranty

- Five-year warranty.

### Certifications

- UL cUL wet location listed.
- DesignLights Consortium™ Qualified.

**Note:** DesignLights Consortium™ Qualified and classified for DLC Standard (all lumen packages), refer to [www.designlights.org](http://www.designlights.org) for details.

### Note

- Actual performance may differ as a result of end-user environment and application. All values are design or typical values, measured under laboratory conditions at 25°C (±5°C) specifications subject to change without notice.

### PHOTOMETRICS

### ACCESSORIES(Option)

**Photocell**  
USE: Photocell is field installed or pre-installed in factory by requesting

**Emergency Battery Backup**  
Description: It can be pre-installed in factory or field installed

**Power and CCT controller**  
USE: The wattage and CCT can be changed by switch selection on the controller. Only suitable for 26W,38W,65W,100W.
